Twenty years later, it's finally happening again!

We have been eagerly awaiting for this moment, and we are truly excited to see this event return to Paris. **From June 30th to July 3rd, 2026, we will once again have the pleasure of welcoming general practitioners from all over Europe.**

This will be the perfect opportunity for everyone to discover **WONCA Europe and its various networks**: EGPRN for research, EQuIP for quality, EURACT for teaching, EURIPA for rural medicine, EUROPREV for prevention and EYFDM for young doctors.

As well as its numerous Special Interest Groups : physician health, medicine and lifestyle, social prescribing, cardiovascular health, gastroenterology, infectious diseases, respiratory health, immunity and allergies, diabetes and more.

A theme inspired by our national motto

The conference will explore the French motto "Liberty, Equality, Fraternity" through the lens of general practice:

- > **Liberty** to prescribe, to choose one's place of practice, to decide, to refuse, to care for oneself;
- > **Equity** in access to care, prevention, treatments, and science;
- > **Fraternity** in interprofessional collaboration, territorial organization, financial solidarity of the system, diversity of practices, and the One Health approach.

A rich and thought-provoking program designed to celebrate the humanism at the heart of general practice!

An unforgettable experience awaits you

Held in both French and English, this conference promises to be a rare and memorable event.

Sharpen your pencils: The call for abstracts for research work and experience sharing has been open.

Polish your accents: Live transcription and translation will be available for all sessions.

Prepare your senses for beauty, elegance, and magnificence: The gala dinner will unveil the magic of Paris along the Seine, and the Louvre Museum will open its doors for an exclusive private visit.

Mark your calendar today and join us for this inspiring gathering : together let's shape the future of General Practice, driven by fulfilled and passionate general practitioners!
